ABOUT ME

As a third-year IT student at the National Institute of Business, I am passionate about building user-friendly and efficient web solutions. With a strong foundation in Python, Django, and JavaScript, I specialize in full-stack development, creating dynamic applications with optimized performance.
My experience in React.js and Next.js enhances my ability to develop seamless user interfaces while ensuring robust backend functionality. I am a quick learner, a problem solver, and a collaborative team player eager to apply my skills in a Python Developer Intern role.
I look forward to the opportunity to contribute and grow as a developer.

WORK EXPERIENCE

E-Commerce Website
- Developed a complete e-commerce website using React.js, Tailwind CSS, Node.js, Express.js, and MongoDB.

POS system manages a clothing store
- Built a full-stack POS system for managing a clothing store using modern technologies like Next.js, Tailwind CSS, Nest.js, and MySQL as part of a team.

PROJECT

Complete Django Project CRM
- Build a Complete Customer Relationship Management (CRM) system using the Django framework.

Frontend Design Projects
- Designed and developed responsive user interfaces with frameworks such as React.js, Next.js, and Tailwind CSS.

Full Stack E-Commerce Website
- Built a responsive e-commerce platform using PHP, Bootstrap 5, MySQL, Ajax, and jQuery.
